Transonic ultrasonic has been designing **Industrial Ultrasonic Cleaning System** since 2004. Transonic cleaning systems offers a wide range of **industrial ultrasonic cleaning equipment**. The use of ultrasonic is practically limitless.

About Us

Incepted in **2004**, we, **R. K. Transonic Engineers Pvt. Ltd.**, are an ISO 9001:2008 certified company that is engaged in the manufacturing, supplying and exporting of a comprehensive range of Industrial Cleaning System. The qualitative range of products offered by us Ultrasonic Cleaners, Single Tank Ultrasonic Cleaning Systems and Multi Stage Aqueous Ultrasonic Cleaners. Finding vast application in the medical field, the whole range of the equipment offered by us has fetched high demands among the customers we have accomplished to gain.

We are backed by a dexterous team that aids us in making the offered range of supreme quality products available to our prestigious clients. To achieve this effect (Ultrasonic Effect) in the liquid, high frequency generators are used which converts the frequency developed to the corresponding frequency of the ultrasonic unit which again is transformed into mechanical vibrations with the help of electromechanical transducers. These companies use latest technology and quality raw material during the production of above mentioned products. Their desire to serve the clients with utmost quality products has enabled us in securing a conspicuous position in the market.

Under the mentorship of **Mr. Rajendra Pal**, we have earned the desired name in the market. Their intense experience in the domain has enabled us in touching the dimensions of success. Owing to his excellent management skills and an undeviating urge...
